SENATE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF HEALTH, ENVIRONMENTAL PROTECTION AGENCY, HONOLULU BOARD OF WATER SUPPLY, AND NAVY TO EXPEDITIOUSLY IMPLEMENT THE RECOMMENDATIONS SUBMITTED TO THE LEGISLATURE BY THE RED HILL FUEL STORAGE FACILITY TASK FORCE.

1 WHEREAS, two tanks located in the Red Hill Underground Fuel
2 Storage Facility are only one hundred feet above a major
3 groundwater aquifer that serves as a source of drinking water
4 for thousands of Oahu residents; and

5
6 WHEREAS, in 2014, in response to a fuel tank leak at the
7 facility, the Legislature established a task force to study the
8 effects of the leak and provide the Legislature with findings
9 and recommendations; and

10
11 WHEREAS, the city, state, and federal officials of the Red
12 Hill Fuel Storage Facility Task Force noted in its report to the
13 Legislature that double-lining the large and aging tanks
14 provides one method of preventing future leaks capable of
15 contaminating a major underground aquifer; and

16
17 WHEREAS, in its report, the Red Hill Fuel Storage Facility
18 Task Force recommended that the Legislature:

- 19
20 (1) Encourage the Department of Health, Environmental
21 Protection Agency, Honolulu Board of Water Supply, and
22 the Navy to continue efforts to protect the water and
23 drinking supply of Hawaii, particularly through
24 installation of additional groundwater monitoring
25 wells, increased frequency of all monitoring
26 activities, and sampling of the water supply;
27
28 (2) Encourage the Department of Health, Environmental
29 Protection Agency, Honolulu Board of Water Supply, and
30 the Navy to keep the public informed on matters of

1 public interest regarding the Red Hill Fuel Storage
2 Facility; and
3

- 4 (3) Encourage the Department of Health, Environmental
5 Protection Agency, and the Navy to finalize a
6 negotiated agreement for the Red Hill Fuel Storage
7 Facility that protects drinking water resources,
8 appropriately responds to the reported release of
9 petroleum, and minimizes the threat of potential
10 future release; now, therefore,
11

12 BE IT RESOLVED by the Senate of the Twenty-eighth
13 Legislature of the State of Hawaii, Regular Session of 2015, the
14 House of Representatives concurring, that the Department of
15 Health, Environmental Protection Agency, Honolulu Board of Water
16 Supply, and Navy are requested to expeditiously implement the
17 recommendations of the Red Hill Fuel Storage Facility Task Force
18 to the Legislature; and
19

20 BE IT FURTHER RESOLVED that:
21

- 22 (1) The Navy is urged to install double-lining, also
23 called secondary containment, at the Red Hill Fuel
24 Storage Facility;
25
26 (2) The Department of Health, Environmental Protection
27 Agency, Honolulu Board of Water Supply, and Navy are
28 urged to install additional groundwater monitoring
29 wells and increase the frequency of all monitoring and
30 sampling activities at the Red Hill Fuel Storage
31 Facility; and
32
33 (3) The Department of Health, Environmental Protection
34 Agency, and Navy are urged to finalize a negotiated
35 agreement for the Red Hill Fuel Storage Facility that
36 protects drinking water resources, appropriately
37 reports the release of petroleum, and minimizes the
38 threat of potential future releases; and
39

40 BE IT FURTHER RESOLVED that certified copies of this
41 Concurrent Resolution be transmitted to the members of Hawaii's
42 congressional delegation, Commander of the United States Pacific

S.C.R. NO. 174

1 Command, Commander of the United States Pacific Fleet,
 2 Administrator of the Environmental Protection Agency, Director
 3 of Health, Chairperson of the Board of Land and Natural
 4 Resources, Chairperson of the Board of Directors of the Honolulu
 5 Board of Water Supply, and Manager and Chief Engineer of the
 6 Honolulu Board of Water Supply.
